ABOUT

I am a proud dog mum of a crazy boxer called Kylo. In my spare time I enjoy going swimming, gaming, reading and occasionally doing yoga.

PROFILE

Motivated and detail-oriented career changer with a background in care and a recent qualification from a web development bootcamp. During my course, I developed a strong interest in software testing and gained hands-on experience in manual testing, bug reporting, and working in team-based development projects. I bring strong observational skills, and a passion for improving software quality. Eager to begin a career in software testing where I can continue learning and contribute to delivering reliable and user-friendly applications.
